

Let's Get Talking: Welcome

Welcome to Let's Get Talking. We're here to help you and your child with practical advice and support in developing their speech, language and communication skills.

There are lots of ways to support communication development and everyone - from siblings and relatives to friends and teachers - can get involved.

Playing games and setting up fun activities is a great way to do this, as they help to make words more memorable and meaningful.

Taking turns while playing can support your child's attention and listening skills, and it's also a good way to support their understanding of language, their spoken language development and how they interact with others.

Developing these areas of communication can help your child in every part of their life, especially at school and when it comes to making and playing with friends.
